DunDeal

Yuri Khechoyan, Leah Perry, Jessie Wilkins

Team Information

- Yuri Khechoyan
- Major(s): Bus. Admin & MIS
- Year: Junior
- Role: Project Lead, SW Engineer, UI/UX Designer, Software Developer

Team Information

- Leah Perry
- Major(s): Cyber Security
- Year: Senior
- Role: UI/UX Designer, Software Developer

Team Information

- Jessie Wilkins
- Major(s): MIS | Cyber Security (minor)
- Year: Sophomore
- Role: UI/UX Designer, Firebase Engineer, Software Developer

Purpose & Goal

- Create service based App
- Help College Students w/tasks
- Get Paid – Students & Us

- Similar: Uber & UberEATS

UBER

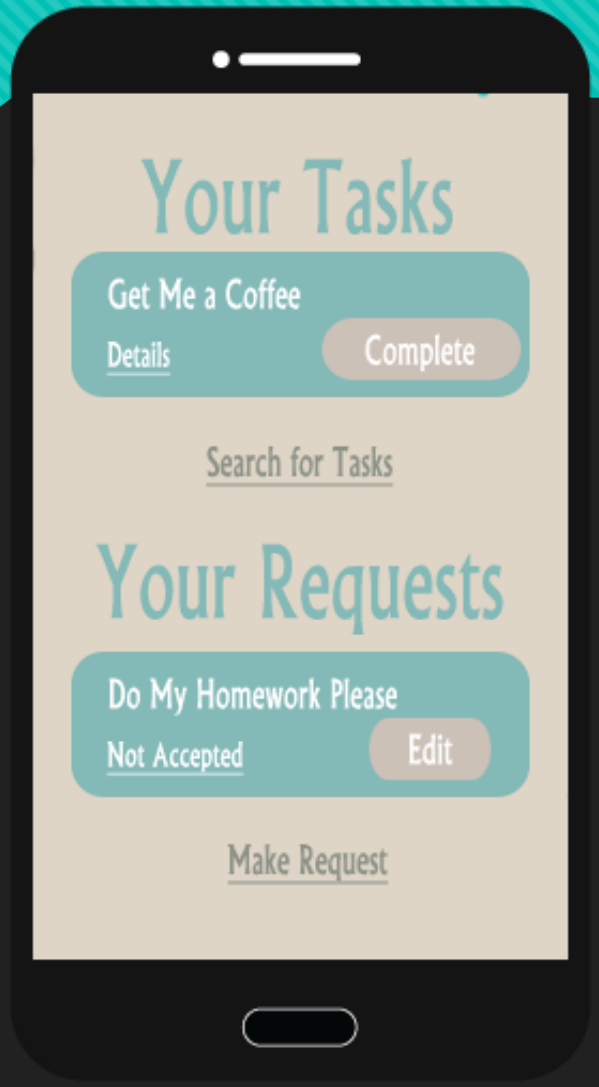
UBER EATS

Major Features

- Students (Task Completers) – called Dundies (contractors)
- Dundie accepts task: Student (task creator) is notified thru app who is taking care of task
- Uses Google's Firebase System to communicate info between Student & Dundie

Mock-ups

Main Menu

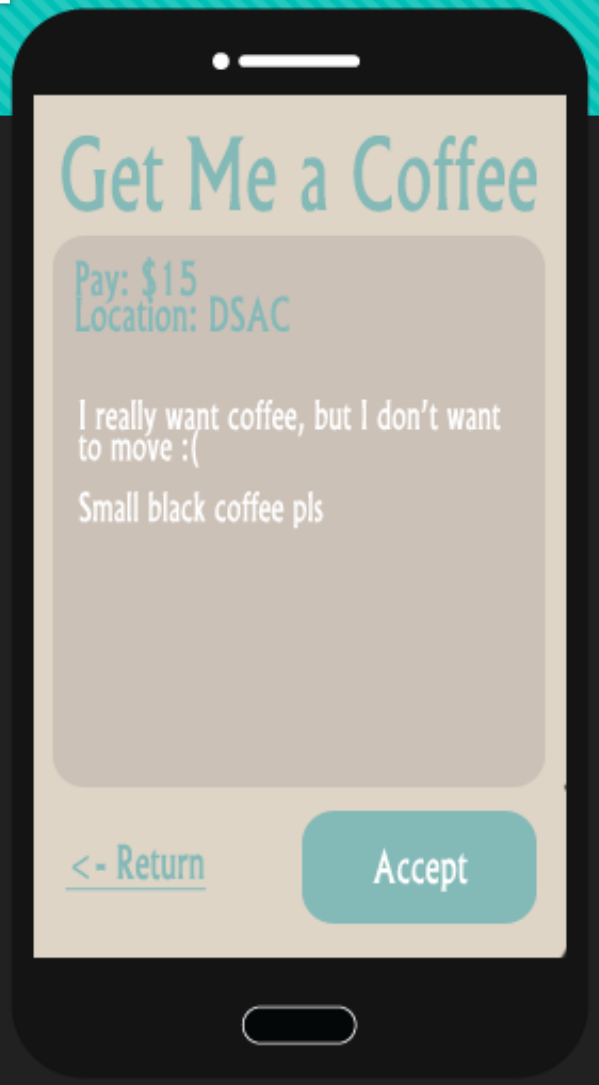


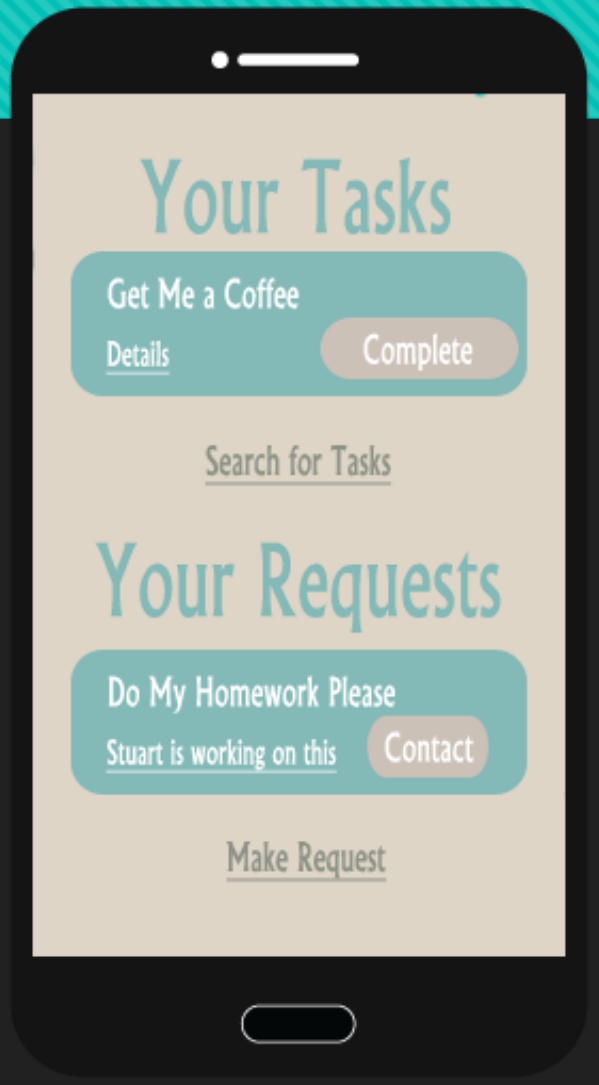
Title text changes size to fit title bar?

Create Task

Mock-ups

Accept Task (Dundie)

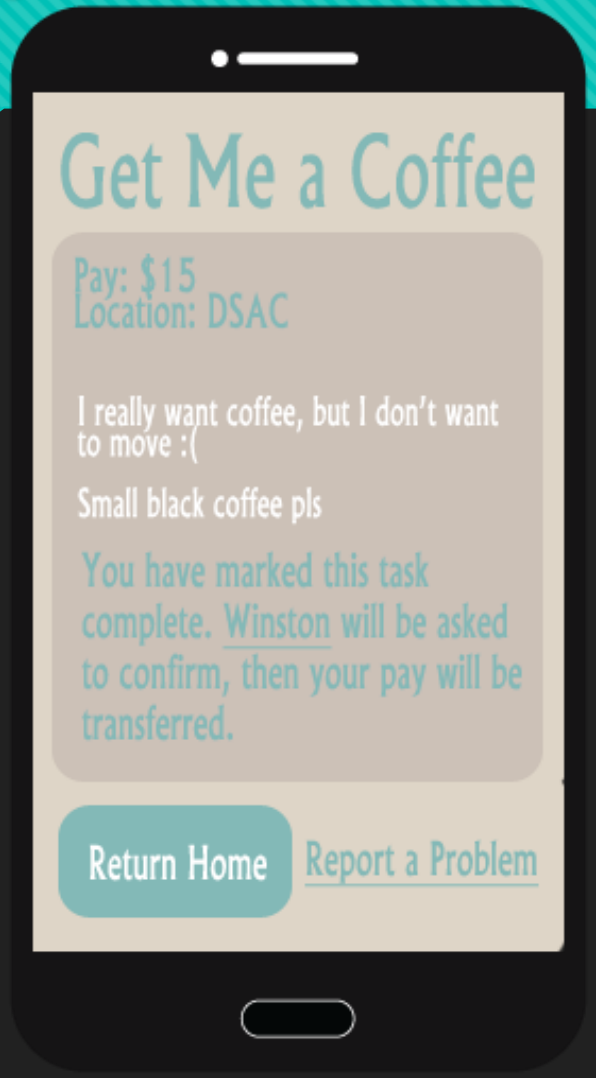




Task In Progress

Mock-ups

Dundie: Completed Task (Student response needed)

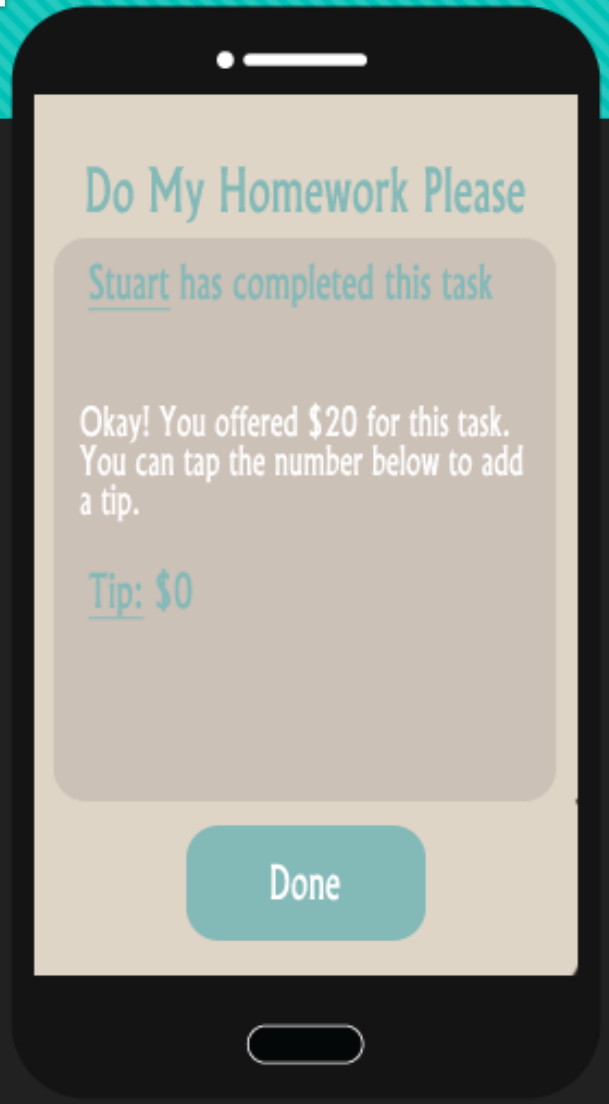


Problem reporting to deal with nonpaying customers?

Student: Confirm/Deny task completion

Mock-ups

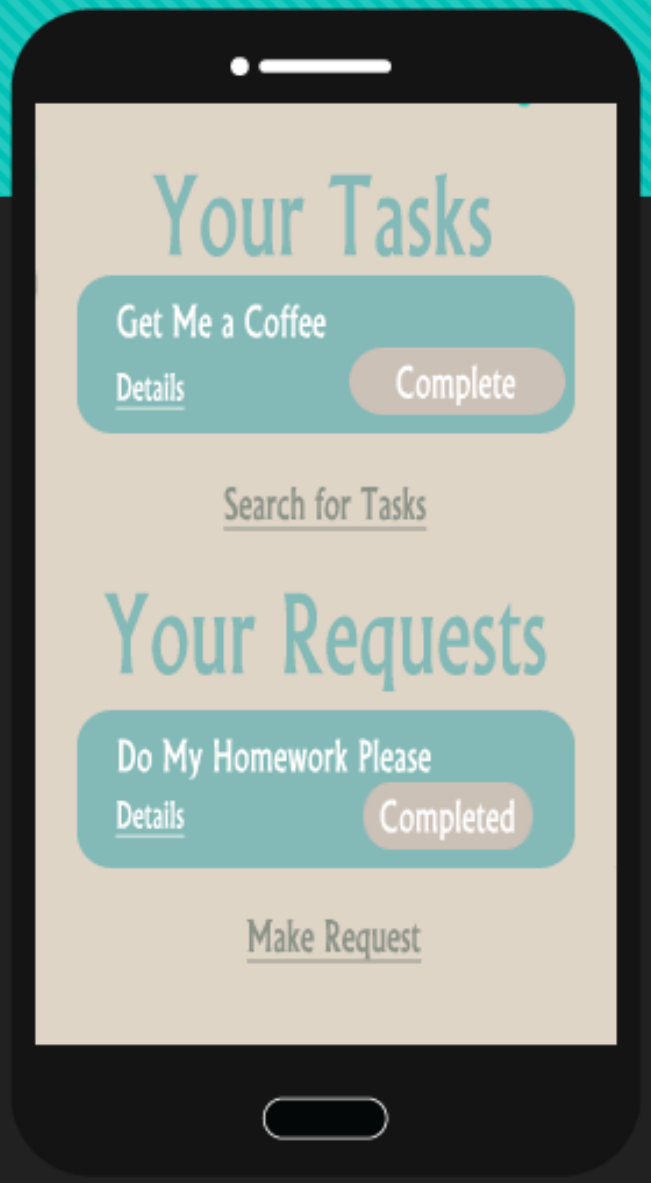
Add Tips (optional)



Student: Confirmation

Mock-ups

Task officially completed



Lesson Learned

- Team Collaboration: Everyone has a strength & weakness
- GitHub = Life Saver:
  - `git reset [commit number] --hard`
  - `git push origin -f`
- App communicates with Firebase

Live Demo
